## SUMMARY

---

I am a proactive Computer Science student with a strong foundation in software development and hands-on experience in front-end development. During my internship at SRS Infosystems, I honed my skills in crafting user-centric interfaces and optimizing user experiences. My expertise lies in web and Android development, and I have successfully contributed to projects such as the Connect for Change App as a Team Lead, A Android Application personal project, and a Client Website during internship. I am passionate about creating visually appealing, responsive, and accessible designs that enhance usability and engagement.

## EDUCATION

---

### Bachelor of Technology in Computer Engineering

Jan 2021 – July 2024

St. Vincent Pallotti College of Engineering & Technology • Nagpur, Maharashtra

GPA 8.3

## EXPERIENCE

---

### Software Development Intern

SRS Infosystems Pvt. Ltd.

- Developed and deployed a client website using HTML, CSS, JavaScript, and PHP, achieving a 35% improvement in page load speed and a 20% increase in user engagement through a responsive and user-friendly interface.
- Built the front-end for a Quotation System add-on for Google Sheets, designing a gallery module for template selection that reduced data retrieval time by 40% and integrating cloud storage, which streamlined data management and enhanced user experience.
- Designed the UI/UX for an in-house geofence and WiFi-based attendance monitoring system using Figma, focusing on intuitive navigation and seamless functionality, reducing onboarding time for new users by 25%.

## PROJECTS

---

### Web Development Project

Parshwa Acrylic's Acryprint Website

- Developed a website allowing users to upload images, preview them in various shapes and sizes, and place orders, increasing user engagement by 30% and reducing order processing time by 25%, while achieving a 95% client satisfaction rate.
- Integrated Google Sheets for storing order details, automating data management to reduce manual effort by 40% and significantly improving operational efficiency.
